

Statistics and R

part 9: t-tests(cont)

Wayne Stewart

Seminars

Next Thursday (12-10-2015) will be the last seminar for 2015.

We will start again next semester.

Bring your laptop.

The University of Oklahoma

Today

- 2 sample t-tests
- calculations by hand
- `t.test()`
- `var.equal=TRUE?`
- CLT

t.test() in R

Normality can be a problem in t.tests with sample sizes small – but for larger samples this turns out not to be much of a problem due to the CLT.

Courses

- **Bayesian Stats MATH 4803/5803**
- Advanced Applied STATS MATH 4793/5793
- Applied Statistical Methods MATH 4753

Next time bring your laptop.
